

TAA Compliance Statement

The Trade Agreements Act ("TAA") (19 U.S.C. & 2501-2581) is intended to foster fair and open international trade. It requires that the U.S. Government purchase end products that are produced, manufactured, or substantially transformed within the United States or a TAA designated country. See Federal Acquisition Regulations, 48 C.F.R. 52.225-5 for more information.

All Systel designed products are TAA compliant, meeting the requirements of the Trade Agreements Act.
